## CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

*Hong Kong Exchanges and Clearing Limited and the Stock Exchange of Hong Kong Limited take no responsibility for the contents of this report, make no representation as to its accuracy or completeness and expressly disclaim any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.*

As at 30 September 2020, the immediate holding company of the Company was Red Link International Limited, a limited liability incorporated in the British Virgin Islands. The directors of the Company considered the ultimate holding company to be Red Link International Limited.

## 2. BASIS OF PRESENTATION AND PREPARATION

The unaudited condensed consolidated financial statements has been prepared in accordance with Hong Kong Financial Reporting Standards (“**HKFRSs**”), which collective term includes all individual HKFRSs, Hong Kong Accounting Standards (“**HKASs**”) and related interpretations, issued by the Hong Kong Institute of Certified Public Accountants (the “**HKICPA**”). The unaudited condensed consolidated financial statements also comply with the applicable disclosure requirements of the Hong Kong Companies Ordinance and the Rules Governing the Listing of Securities on GEM of the Stock Exchange.

The unaudited condensed consolidated financial statements are presented in Singapore dollars (“**SGD**”). Items included in the unaudited financial statements of each entity within the Group are measured using the currency that best reflects the economic substance of the underlying events and circumstances relevant to that entity (the “**functional currency**”). The functional currency of the Company is SGD. The subsidiaries are operating in Singapore and SGD is used as the presentation currency of the Group.

The unaudited condensed consolidated financial statements are prepared on the historical cost basis. It should be noted that accounting estimates and assumptions are used in preparation of the unaudited condensed consolidated financial statements. Although these estimates are based on management’s best knowledge and judgment of current events and actions, actual results may ultimately differ from those estimates and assumptions.

### **Basis of consolidation**

The unaudited condensed consolidated financial statements comprise the financial statements of the Company and its subsidiaries. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the unaudited condensed consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

A subsidiary is an investee over which the Company is able to exercise control. The Company controls an investee if all three of the following elements are present: power over the investee, exposure or rights to variable returns from the investee, and the ability to use its power to affect those variable returns. Control is reassessed whenever facts and circumstances indicate that there may be a change in any of these elements of control.

Goodwill arising on acquisition is recognised as an asset at the acquisition date and initially measured at the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest (if any) in the entity over net acquisition-date fair value amounts of the identifiable assets acquired and the liabilities and contingent liabilities assumed. If, after reassessment, the net fair value of the acquiree's identifiable net assets exceeds the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase.

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies. Associates are initially recognised in the consolidated statement of financial position at cost, and subsequently accounted for using the equity method less any impairment losses. Any premium paid for an associate above the fair value of the Group's share of the identifiable assets, liabilities and contingent liabilities acquired is included in the carrying amount of the investment in associate. Under the equity method, the Group's share of post-acquisition profits and losses and other comprehensive income is recognised in the consolidated statement of comprehensive income. Post-acquisition changes in the Group's share of net assets of associates and distributions received are adjusted against the carrying amount of the investments. Losses of an associate in excess of the Group's interest in that associate (which includes any long-term interests that, in substance, form part of the Group's net investment) are not recognised, unless the Group has incurred legal or constructive obligations to make good those losses or made payments on behalf of the associate. Where the Group transacts with an associate, unrealised profits are eliminated to the extent of the Group's interest in the associate. Unrealised losses are also eliminated, but only to the extent that there is no impairment.

**10. EVENT AFTER THE REPORTING PERIOD**

The Group has the following significant event after the reporting period:

After the COVID-19 outbreak in early 2020, a series of precautionary and control measures have been and will continue to be implemented across Singapore. The Board is of the view that the ultimate impact of the virus on the Group's business is uncertain and beyond prediction as it will be highly dependent on the future development. The Board will closely and continuously monitor the situation and assess the COVID-19 outbreak's impact to the Group.

## MANAGEMENT DISCUSSION AND ANALYSIS

### BUSINESS REVIEW

The Group is a one-stop after-market automotive service provider in Singapore offering comprehensive and integrated automotive-related solutions to customers. The Group is principally engaged in the provision of a comprehensive range of after-market automotive services, with a focus on inspection, maintenance and repair services and also engaged in (i) offering short-term and long-term car rental services; and (ii) supplying passenger car spare parts, accessories and automotive equipment to customers in Singapore and overseas countries. The Group operates three service centres and one paint workshop in Singapore. Our service centres are equipped with cutting-edge diagnostic equipment and facilities for the provision of comprehensive after-market automotive services except for spray painting services which shall be handled by our paint workshop.

The coronavirus disease 2019 (“**COVID-19**”) outbreak has disrupted businesses and market uncertainties in affected regions and imposed a negative impact on economies. On a quarter-on-quarter seasonally-adjusted annualised basis, the Singapore economy shrank by 41.2% in the second quarter of 2020 due to Circuit Breaker (“**CB**”) measures implemented by the Singapore Government from 7 April 2020 to 1 June 2020 which included the suspension of non-essential services and closure of most workplace premises to reduce the local transmission of COVID-19 in Singapore, as well as weak external demand amidst a global economic downturn precipitated by COVID-19.

The Group’s operation in Singapore was only allowed to open for emergency repairs services (as listed under Essential Services) on an appointment basis during the CB period. Such measures led to extensive disruption to the regular operation of the Group in Singapore, and as a result, had an adverse impact on the Group’s after-market automotive services.

In the first quarter of 2020, the Group has terminated the car rental agreement with one of its major long-term car rental customers that were facing financial difficulties towards the end of year 2019 (the “**Termination**”). The Group has since started cooperating with other car-sharing and ride-hailing companies in Singapore in place of this customer. However, the COVID-19 outbreak has significantly reduced tourist arrivals and domestic travels, which had adversely affected the car-sharing and ride-hailing industry in Singapore. The Directors expect that it may require a longer period than usual for a recovery in the car rental services segment.

Sales of passenger car spare parts and accessories to overseas customers increased by approximately 67.6% in the nine months ended 30 September 2020 as compared to the nine months ended 30 September 2019. Shenzhen Aodi Taoche Automobile Trading Co., Ltd.\* (深圳傲迪淘車汽車貿易有限公司) (“**Shenzhen Aodi Taoche**”), a wholly-owned subsidiary of the Company commenced its activity to supply automobile spare parts, accessories, equipment and automobiles to customers in Mainland China in July 2020. Sales of Shenzhen Aodi Taoche for the three months ended 30 September 2020 amounted to approximately S\$1.1 million.

## OUTLOOK

Since the outbreak of the COVID-19, the Singapore government has taken emergency public health measures and various actions to prevent the spread of COVID-19. Such measures led to extensive disruption to the regular operation of the Group in Singapore, and as a result, had an adverse impact on the Group’s financial performance. The Group faced a challenging operating environment as business and consumer sentiments have turned cautious amidst an economic downturn. Many consumers continued to work from home and have tightened their expenditure on perceived non-essential spending.

The Group continues to strengthen its cost control measures substantially in order to mitigate the adverse impact from the COVID-19 outbreak. To date, the Group has implemented several initiatives, including salaries cut, work-shift rotation and negotiation with the landlord on rental rates, etc. In the third quarter of 2020, the Group continued to improve its operational efficiency and reduce costs further through a series of measures as follows:

- a) Consolidate the Tagore Service Centre into Serangoon Service Centre to improve business continuity and cost control amidst weak business outlook. There was minimal disruption to its hoists capacity. The costs savings and benefits from the consolidation of the two service centres are expected to exceed the costs for the move.
- b) Relocate the motor accident claims department (including hoists and machinery such as Car-O-Liner collision repair and wheel alignment systems) for insured repairs from the Serangoon Service Centre to a new location in the same vicinity as the paint workshop. The relocation completed the Group’s efforts to house its insured repair services in the same location to improve the car owners’ experience and the efficiency of repairing cars involved in accidents which will typically need spray painting services. In addition, this will optimise and accommodate the relocation of the Tagore Service Centre.

The Board believes that, if the transaction contemplated in the Letter of Intent materialises, the Group will leverage on the advantages, resources and expertise of Jintao Automobile to establish a stable and mutually beneficial strategic relationship with it in respect of the sales and development of automobile parts and related products in the Mainland China market, thus increasing the income sources of the Group, and therefore, such transaction is in the interests of the Company and its shareholders as a whole. ## **FINANCIAL REVIEW**

### **Revenue**

Revenue for the Group was approximately S\$10.8 million for the nine months ended 30 September 2020 (“**PE2020**”) as compared to approximately S\$13.3 million for the nine months ended 30 September 2019 (“**PE2019**”), a decrease of approximately S\$2.5 million. The decrease was mainly attributable to (i) lower revenue for after-market automotive services of approximately S\$2.5 million comprising a decrease in non-insured repair services of approximately S\$1.7 million and a decrease in warranty-related business of approximately S\$0.8 million and (ii) a decrease in car rental income of approximately S\$0.5 million, offset by an increase in sales of passenger car spare parts, accessories, automotive equipment and automobiles of approximately S\$0.5 million.

### **Cost of materials used**

In PE2020, the cost of materials used increased by approximately S\$0.4 million as compared to PE2019. This is due to the inclusion of the cost incurred by Shenzhen Aodi Taoche in its supply of automobile spare parts, accessories, equipment and automobiles to customers in Mainland China, which amounted to approximately S\$1.0 million. The average purchase prices of our cost of materials used in providing after-market automobile services have remained relatively stable for PE2020.

### **Employee benefit expenses**

The employee benefit expenses has decreased from approximately S\$3.8 million in PE2019 to approximately S\$3.1 million in PE2020 due to cost reduction initiatives.

### **Depreciation of right-of-use assets**

The decrease in depreciation of right-of-use assets from approximately S\$2.4 million in PE2019 to approximately S\$2.0 million in PE2020 was due to reduction in rental rates from landlords.

### **Impairment of trade receivables**

The Group recorded an additional impairment of trade receivables of approximately S\$0.8 million on the trade receivables from customers affected by the economic effects brought on by COVID-19 and a long-term car rental customer due to the Termination.

## **Impairment of right-of-use assets**

The recoverable amount of the Group's right-of-use assets was impaired as a result of the effects of COVID-19 on the Singapore economy. Hence the Group has recorded an additional impairment of right-of-use assets amounting to approximately S\$0.2 million for PE2020. There is no additional impairment recorded for the three months ended 30 September 2020.

## **Other expenses**

The increase in other expenses of approximately S\$0.2 million for PE2020 was mainly due to (i) increase in insurance expenses for the fleet of rental vehicles amounting to approximately S\$0.2 million; and (ii) increase in professionals fees of approximately S\$0.3 million, offset by (i) a decrease in cost of services of approximately S\$0.1 million; and (ii) increase in exchange gain of approximately S\$0.2 million.

## **Income tax (credit)/expense**

The income tax credit for PE2020 arised from the reversal of the over-provision of deferred tax expense of a subsidiary in the Group offset by the current period provision for income tax of a subsidiary in Mainland China.

## **Loss and total comprehensive income for the period**

The Group recorded a loss and total comprehensive loss for PE2020 of approximately S\$0.8 million compared to a profit and total comprehensive income for PE2019 of approximately S\$0.4 million. The loss for the period was attributable to the combined effects of the decrease in revenue, increase in impairment of right-of-use assets and trade receivables.
